

Wassim Soltani

Software Engineer

 wasoltani@gmail.com  +21696220126  Ariana, Tunisia  linkedin.com/in/wsoltani

Full-stack engineer with 5 years of experience delivering scalable, high-performance software solutions that drive business success. Adept at modern web technologies, intuitive user experiences, and scalable architectures, with a proven track record of reducing technical debt by 10%, improving delivery timelines by 15%, and leading cross-functional teams to achieve project goals.

PROFESSIONAL EXPERIENCE

Full-stack Software Engineer

Vantage Labs LLC

April 2022 – present

Remote

Core technologies: React with TypeScript, Tailwind, Spring Boot, Keycloak, PostgreSQL, React Native, Kotlin, Swift, AWS, Browser Extensions.

- Delivered 100% of projects on time by prioritizing tasks, optimizing development schedules, and ensuring clear communication.
- Developed scalable, maintainable code that reduced technical debt by 10%, which improved long-term system stability.
- Refactored legacy codebases, improved maintainability, and reduced update time by 15%.
- Collaborated with management, stakeholders, and teams, improving project delivery time by about 10% and increasing stakeholder satisfaction by 15%.
- Coordinated with QA teams, reducing post-release defects by 20% and increasing client satisfaction by 10%.
- Applied Agile methodologies, achieving 90% on-time delivery.

Lead Full-stack Developer/Engineer

Almaviva S.p.A

September 2019 –

March 2022

Tunisia

Core Technologies: Vanilla HTML/CSS/JS, Angular, Ionic, Spring Boot, Java, MySQL, MongoDB.

- Led enterprise software development, translating user requirements into technical solutions, and accelerating project delivery by 15%.
- Engineered, tested, and documented web applications, delivering 4+ major projects with 98% on-time completion.
- Resolved 90% of support tickets within SLA, ensuring timely issue resolution and minimizing production downtime.
- Deployed and managed applications on cloud services and self-hosted VPS, achieving 99.7% system uptime and ensuring scalability for high traffic.
- Facilitated regular stakeholder meetings to align on project milestones, resolve challenges, and ensure 95% on-time project delivery.
- Strengthened client relationships through ongoing communication, contributing to a 20% increase in customer satisfaction.
- Mentored and provided technical guidance to 3 junior engineers, improving team performance by 15%.

PROJECTS

Blueblood

July 2024 – present

Founded and operated a software solutions company providing custom tools for small businesses.

Core Technologies: *JHipster, Spring Boot, Angular, PostgreSQL, Elasticsearch, Docker.*

- Delivered full-stack applications using Angular and Spring Boot, increasing user engagement by 25% and reducing operational costs by 15%.
- Led all phases of the project lifecycle, from planning to post-launch support, ensuring seamless deployment and boosting client efficiency by 20%.

EDUCATION

Engineering Degree (Master of Science Equivalent) in Software Engineering

TekUp University 

2019 – 2022

Bachelor's Degree in Computer Science Applied to Business Management

Tunisia Private University (ULT) 

2016 – 2019

LANGUAGES

English — Native/Bilingual

French — Fluent
DELF-B2

Arabic — Native/Bilingual

SKILLS

Core Technologies

- **Languages & Frameworks:** Java, React, Angular, Spring Boot, Node.js, Kotlin, Swift, JavaScript (ES6+), TypeScript, Python.
- **Frontend Development:** React with TypeScript, React Native, Redux, Angular, NgRx, TailwindCSS, HTML5, CSS3, Browser Extensions.
- **Backend Development:** Spring Boot, Java, Node.js, Express.js, JHipster, RESTful APIs, GraphQL.
- **Mobile Development:** React Native, Ionic, Kotlin, Swift.

Cloud & DevOps

- **Cloud Platforms:** AWS, Azure, Google Cloud Platform (GCP).
- **DevOps & Infrastructure:** Docker, Kubernetes, CI/CD (TeamCity, Jenkins, Bitbucket Pipelines).

Databases & Data Storage

- **Relational Databases:** PostgreSQL, MySQL.
- **NoSQL Databases:** MongoDB, Firebase.
- **Search & Data Storage:** Elasticsearch.

Tools & Version Control

- **Tools:** Jira, Postman, IntelliJ IDEA, Visual Studio Code.
- **Version Control:** Git, GitHub, Bitbucket.

Methodologies & Practices

- **Agile & Scrum:** Agile methodologies, Scrum.
- **Testing & Development:** Test-Driven Development (TDD), Unit Testing, API Design, Continuous Integration / Continuous Deployment (CI/CD).

Other Skills

- **Authentication & Security:** Keycloak, OAuth2, JWT.
- **UI/UX Design:** TailwindCSS, PrimeNG, Bootstrap, Material.

INTERESTS

Music: Enjoy playing the electric guitar, focusing on self-improvement and learning new techniques.

Video games: Participated in game jams, building small projects and collaborating with others under tight deadlines.

Open-source projects: Keen to contribute to open-source projects and learn from the community.
